Shooting Cracks in Hyalite

Hyalite - main fork
Northern Gallatin
3/3/2024
Code
Latitude
45.44720
Longitude
-110.96200
Notes

From obs: "Toured to the zipper for some 25° meadows and while the skiing was excellent, the stability was not. We triggered numerous thundering whumphs and got shooting cracks, the largest of which propagated at least 100' wide! See snow profile attached with test results."
