

Natural slides in Carrot Basin

Taylor Fork
Southern Madison
12/12/2019
Code
SS-N-R2-D2-O
Elevation
9500
Aspect
NE
Latitude
45.06070
Longitude
-111.27200
Notes

Forecaster obs: We rode into Taylor Fork on 12/13 and saw recent crown lines along the long ridge in Carrot basin. Appeared to be natural and broke on weak snow at the base of the snowpack. They were buried by recent snow so at least one day old, but timing is estimated.

Number of slides
3
Number caught
0
Number buried
0
