Natural Wind Slab - Overlook Mountain

Overlook Mountain Northern Gallatin 12/20/2020 Code SS-N Aspect W Latitude 45.40500 Longitude -110.94200 Notes

From email: "I heard and saw a natural avalanche across the basin on the west-facing slopes below Overlook Mountain, I also observed recent avalanche debris below "The G Spot" which is in a <u>couloir</u> below Overlook. Even though there isn't any recent snow, the snow that is there is getting actively blown around."
