

Natural Avalanches S. of Cooke City

COOKE CITY

Cooke City

2/15/2024

Code

N

Aspect

E

Latitude

45.02020

Longitude

-109.93800

Notes

From email: "Noted several 1-2 day old dry loose in steep terrain above the cliffs to the lookers left of Hang Ten. Also A large avalanche. crown propogated through the cliffs and looked to be about 200' wide and 1 1/2-2 ft. deep. Debris was no longer visible so I suspect this ran sometime during or shortly after the storm. (02/15)."
